**SUSTONABLE**  
The Circular Design Surface

# About Sustonable

# Sustonable: the circular design surface.

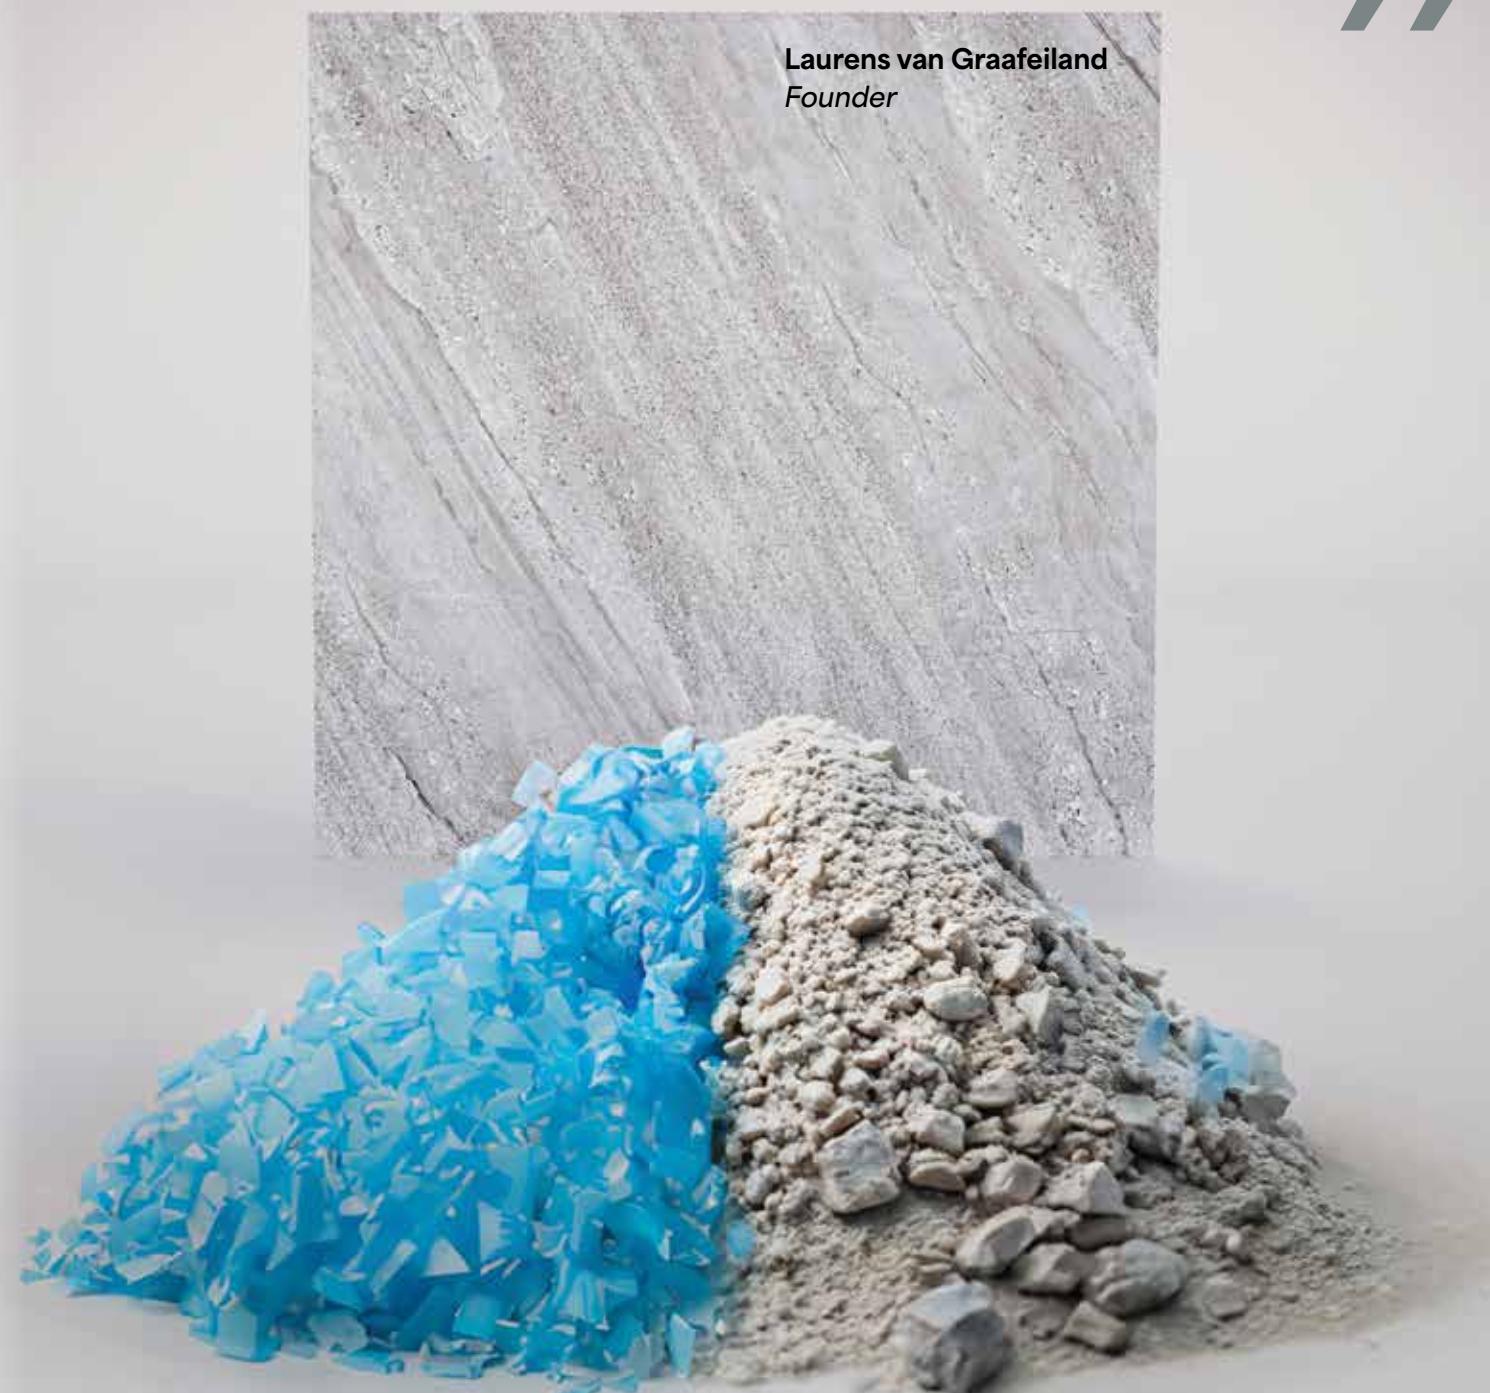

## Building a future where sustainability is the foundation of design.

We believe design is a choice. It's about creating a connection between the spaces we live in and the values we hold. Sustonable embraces this vision by giving aesthetics a role that lasts far beyond the surface. That's why we choose to create beauty with purpose.

Sustonable is a surface that combines elegance and durability, to meet the needs of architects and designers who demand more than just aesthetics. It inspires creative visions while minimizing environmental impact, delivering a material that redefines sustainable design.

Sustonable goes beyond fulfilling aesthetic and technical excellence. It embodies a way of living in harmony with our home, the Earth, and all its inhabitants. Because sustainability is more than a feature, it's a philosophy woven into every surface we create.

Laurens van Graafeiland  
Founder

“ At Sustonable our goal is to reduce plastic waste ending up in the environment while reducing the amount of raw materials used in surface production. ”

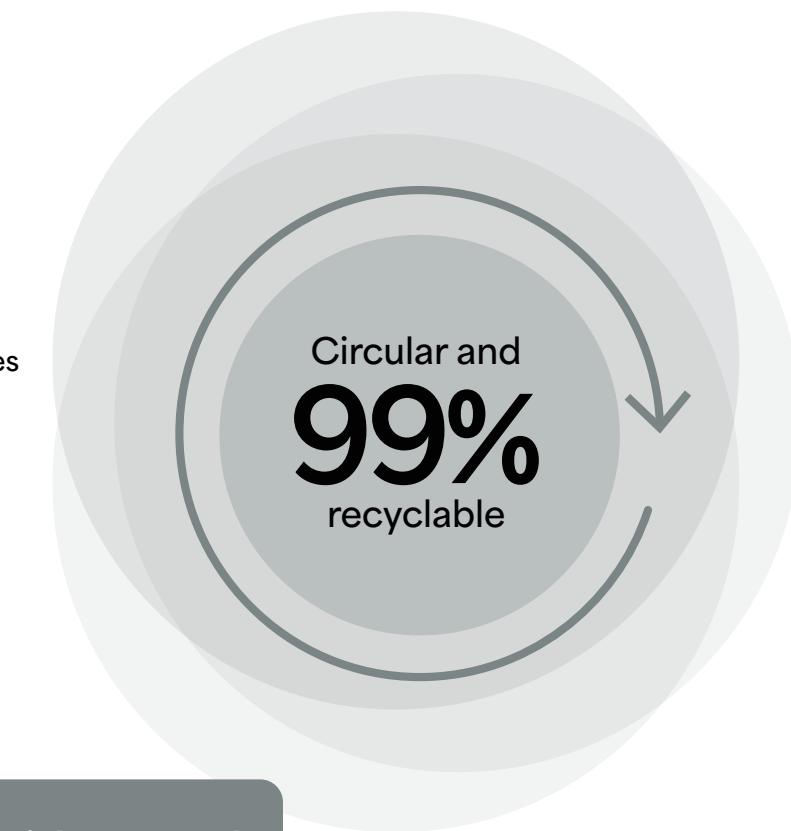

# Good for you, good for the planet.

**One of the most sustainable options on the planet.**

Sustonable isn't just a product; it's a commitment to the environment. With sustainability at its core, it promotes a circular economy, and transforms wastes into a valuable resource.

Because the future isn't built on what we discard, but on what we choose to reinvent.

Made with natural and recycled materials

Free of hazardous chemicals, VOC or toxic additives

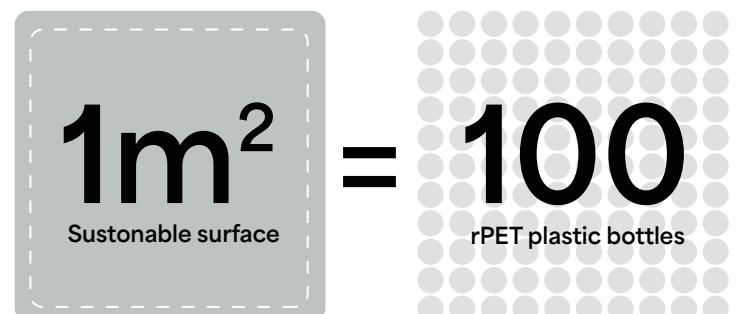

Carbon impact 70% lower than other materials

# Recycled, recyclable, again and again.

## Facts beyond words.

Sustainable is crafted using natural stone, 100% post-consumer recycled glass, and recycled PET. In an eco-friendly production process, raw materials are heated to 250–300°C, with recycled PET serving as the binding agent to create a durable surface.

This production method is meticulously designed to minimize emissions, eliminate toxic catalysts, and ensure a safe working environment.

Recycled PET plastic 2024

62 tons

## The art of recycling: clean, clear, consistent.

The rPET used in Sustainable is sourced from recycling facilities near our factory in Polatlı, Ankara. Plastic bottles are carefully sorted to remove impurities, retaining only clear and blue bottles to ensure consistent color tones. The selected bottles are shredded into flakes, meticulously washed to remove residues, and dried to eliminate moisture.

# Alluring, elegant, contemporary.

Big sizes

Wide range  
of looks

Thin, lightweight  
and easy to install

Customizable  
in size and design

Versatile indoor  
applications

Material for  
green building

## In just a word: Sustonable.

Sustonable offers a range of stunning surfaces in different inspirational looks, designed to elevate interiors.

It combines refined, contemporary aesthetics with functionality and ease of installation, making it the perfect choice for green building projects and creative solutions.

**High impact resistant**

Reduces the risk of cracks or breaks during installation, ensuring exceptional durability even under stress.

**Stain resistant**

The non-porous surface effectively resists stains, keeping a pristine look intact over time.

**Waterproof**

Ideal for areas with frequent exposure to water, offering unmatched protection.

**Hygienic & Easy to maintain**

The non-porous design prevents stains and enables quick, effortless cleaning, ensuring a hygienic surface.

**Sustainability leader**

Boasts a 70% lower carbon footprint compared to traditional materials, is 99% recyclable, and produced without VOC emissions.

**Lightweight & durable**

Thin slabs use 70% fewer raw materials than engineered stone, making them easier to transport, handle, and install without compromising strength or quality.

**Technical features**

# Aesthetic powered by functionality.

## When innovation meets performance.

Combining cutting-edge technology with sustainability, Sustainable redefines what's possible in contemporary design. Each feature is crafted to meet the demands of contemporary interiors with style and efficiency.

# Different looks for unique design.

**Boost your creativity.**

For interior cladding, Sustonable replicates the finest materials of inspiration—marble, concrete, stone, wood, terrazzo, and solid colors—while delivering superior performance. It combines exceptional durability, versatile installation options, and a commitment to environmental sustainability.

Sustonable size & thickness

# The Sustonable solution.

## A versatile choice.

Sustonable surfaces come in three large formats, available in 6 mm and 8 mm thicknesses, both in two finishes: the elegant Matte for a contemporary effect and the refined Semi-Gloss for a subtle shine. Lengths can be customized to suit specific project needs, ensuring a perfect fit for any space.

**6 mm / 1/4" THICKNESS**

WEIGHT 12.6 kg/m<sup>2</sup> / 2.6 lbs/sqft

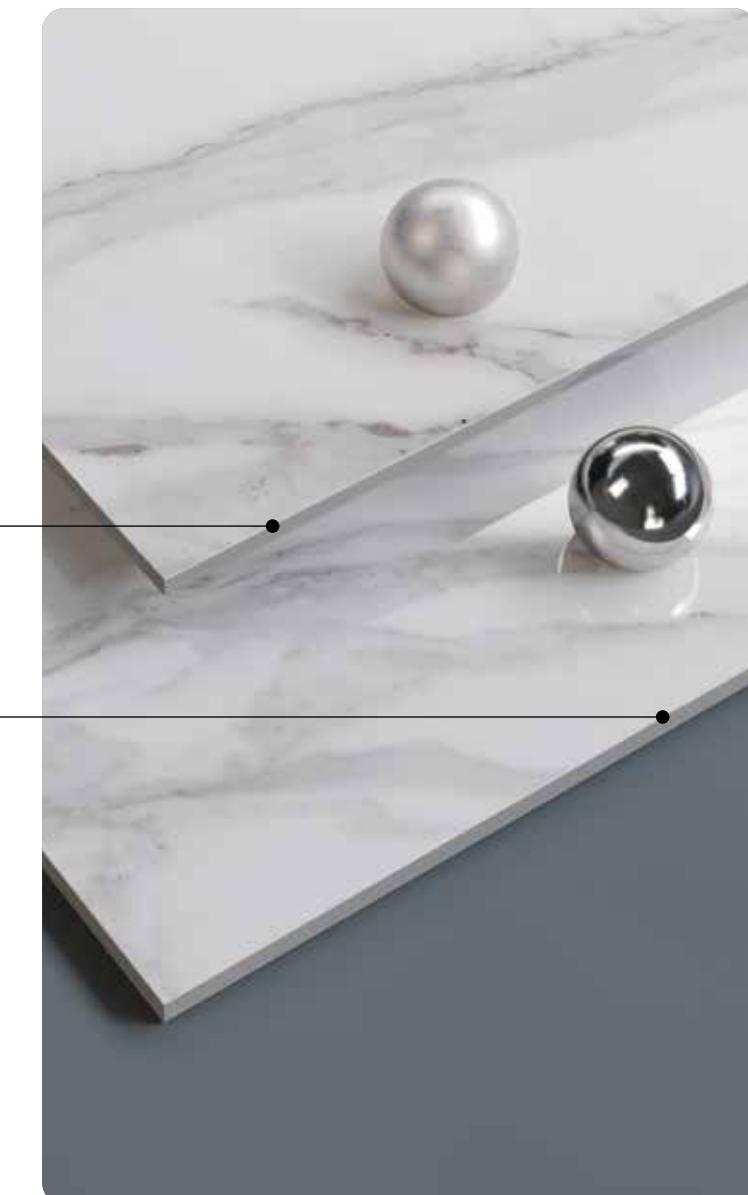

**8 mm / 5/16" THICKNESS**

WEIGHT 16.8 kg/m<sup>2</sup> / 3.4 lbs/sqft

Sustonable is much lighter yet more durable than other materials:

<b>Sustonable</b>	2,133 kg/m <sup>3</sup> / 133 lbs/ft <sup>3</sup>
<b>Marble / Granite</b>	2,700 kg/m <sup>3</sup> / 169 lbs/ft <sup>3</sup>
<b>Porcelain</b>	2,400 kg/m <sup>3</sup> / 150 lbs/ft <sup>3</sup>
<b>Quartz engineered stone</b>	2,300 kg/m <sup>3</sup> / 144 lbs/ft <sup>3</sup>

# Endless application possibilities.

## Multi-functional surfaces for today's interiors.

Sustonable is the ideal choice for multiple interior design applications, adapting to both residential and commercial projects.

Perfect for wall coverings, tables and furniture, as well as sophisticated retail display, Sustonable combines form and function, offering architects and designers a sustainable material that fits any vision.

## Mix it up. Make it yours.

The versatility of Sustonable lies in its ability to combine the various looks of the range. Each finish is carefully designed to complement the others, allowing for endless mix-and-match possibilities, with different shades or textures.

# Sinks & Vanity tops

Sustonable completes its offering with sinks with vanity tops designed for bathroom design: a countertop-mounted sink and a wall-mounted sink with an accessible basin. Both options are available in any color and finish from the Sustonable range, ensuring a seamless match with other applications.

## Axonometric

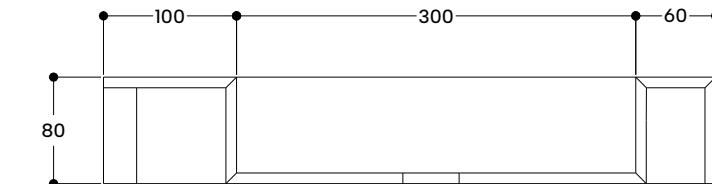

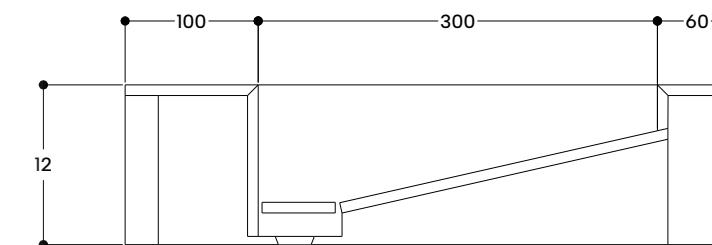

**A** 30x100 cm / 12"x39"  
**B** 46x200 cm / 18"x79"

**A** 30x70 cm / 12"x27.50"  
**B** 46x140 cm / 18"x55"

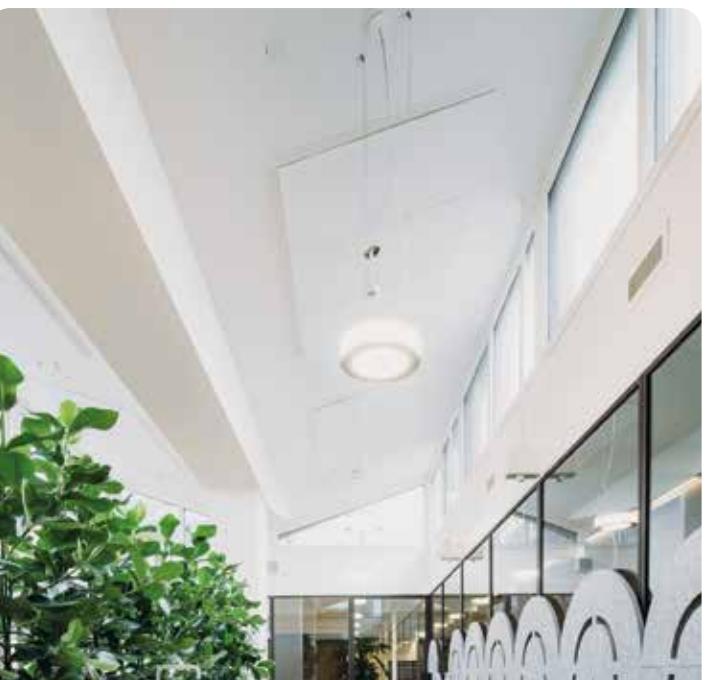

## Elevation with section

The final product may not always perfectly match the photos. Due to the use of recycled materials, slight variations, such as small spots or differences in appearance, occur over the surface.

# Projects around the world

We care,  
we act.

### Certifications

## Our certifications

### Environmental Product Declaration (EPD)

Highlights a commitment to ecological responsibility and transparency, providing a clear, objective assessment of the environmental impact of our surfaces across their entire lifecycle.

### Recycled Claim Standard (RCS)

Certifies the use of recycled materials in our product manufacturing, supporting a more circular economy.

### NSF International

Guarantees that our products meet safety standards, and ensures they are suitable for public health applications.

### ISO 9001

Certifies our focus on delivering high-quality products and processes, ensuring customer satisfaction through excellence and continuous improvement.

### ISO 14001

Reflects our commitment to reduce environmental footprint by following global best practices in environmental management and improving sustainability efforts.

### ISO 45001

Showcases our proactive commitment to worker health and safety by minimizing risks and driving continuous improvement throughout every stage of operations, from design to sales.

### GREENGUARD GOLD

Ensures that our products comply with rigorous chemical and VOC emission standards, promoting healthier indoor environments.
